

CONTENT WARNING

This document contains things that may not be suitable for all ages or will make you uncomfortable. These things are:

- ABDL and Diaper fetish content
- Pedophilia
- Cub/Loli/Shoto content
- Grooming

Hello. Before I start, I just want to show his lists of accounts that he owns so that you can call him out and block him.

(Thank you Super MC for providing me his multiple alt account names)

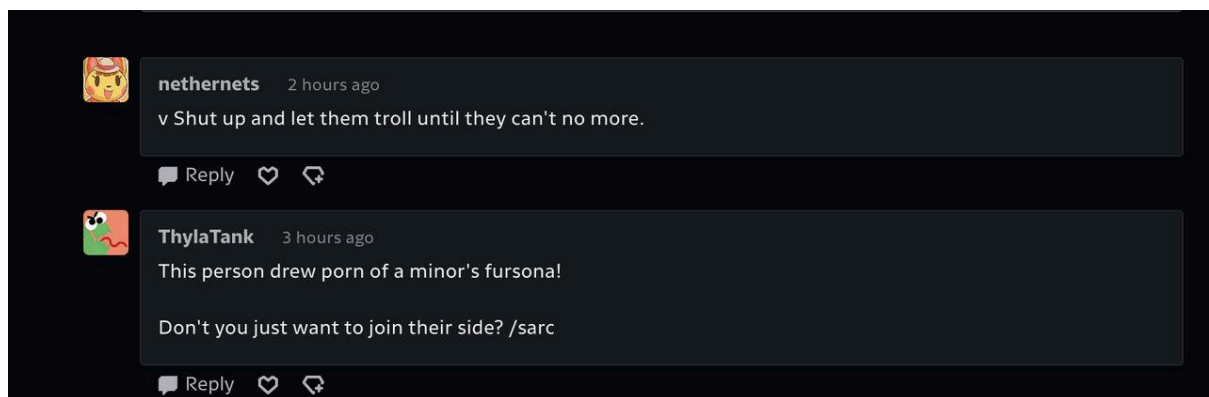

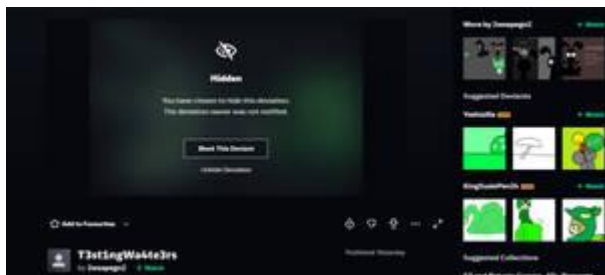

Anyways, I'll list out some stuff that he has done and I'll also provide proof and screenshot of his messages.

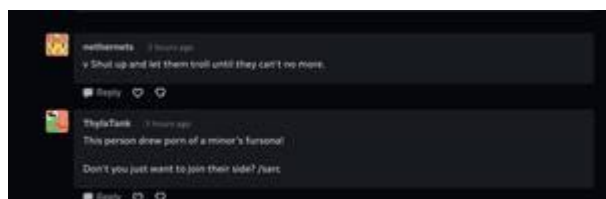

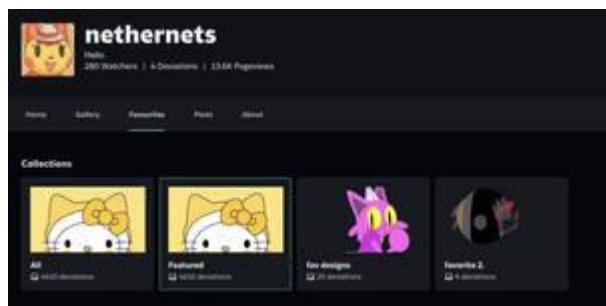

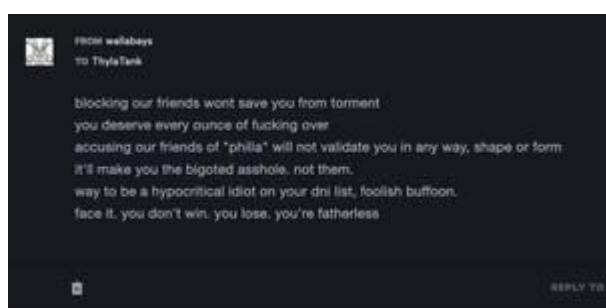

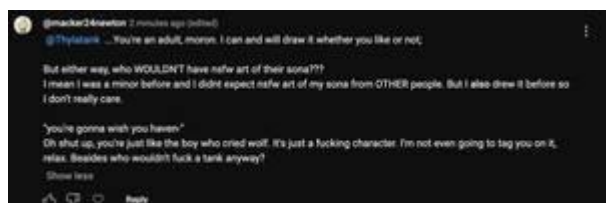

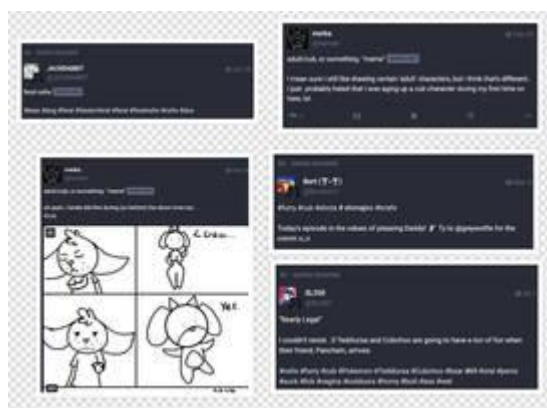

Interactions with TBDLs/minors

So Taultvault has had multiple interactions with users who either identify as TBDL or are underage through either art trades or simply just commenting. Not only that but he also (allegedly) groomed someone named Jwolfaj2009.

Here's a deviantart post of someone who was groomed by him

Just in case he reports this post, here's the screenshot

There's nothing problematic about Pinkwave herself. But yeah mocking anyone's parents death is really something reprehensible

if pinkwave wasn't problematic, she wouldn't be sexualizing minors (no matter if the characters are aged up or not), making fetish/nsfw art as a minor, and leaking her own information (such as the school she goes to, her phone number, and her father's real name)

@Thylatank ...You're an adult, moron. I can and will draw it whether you like or not;

But either way, who WOULDN'T have nsfw art of their sona???

I mean I was a minor before and I didnt expect nsfw art of my sona from OTHER people. But I also drew it before so I don't really care.

"you're gonna wish you haven-"

Oh shut up, you're just like the boy who cried wolf. It's just a fucking character. I'm not even going to tag you on it, relax. Beades who wouldn't fuck a tank anyway?

Hey, i saw your Inkbunny, and how you're being harassed by someone named "jenicpelnka"(I'll call him "Macker").

As someone who's also experienced that lolitard's wrath(but on a worse scale, long story), I feel your pain, btu I think you should also know about the other things he did.

As someone who had to retaliate against Macker by gathering evidence, I can confirm he has, in addition to having a crippling drawn CP addiction:

- groomed real minors, either into doing weird shit with him, or to make him think he's "innocent"(so much for "only fiction"). One of his victims(a now 17 yera old minor) got strikes on his Discord account for "child self endangerment", which makes me think Macker may have CP on his hard drive.
- stalked and harassed me to the point I had to user burners because of him(and sometimes he finds THE BURNERS). Macker jsutifies it with "you make yourself obvious", definitely not a shitty stalker. He also uses alt accounts to spy on and harass others, and he got a journal I made regarding him taken down.
- Drew porn of my fursona without my consent, amd mocked me for it. I had to wipe all my art(mostly involving my characters, or friends' characters) because of him.
- Is generally very immature and shitty. I'd see Macker blame his victims, deny what he's done(even when evidence is right in his face), use slurs he can't reclaim(like the n-word), rage in all caps, send death threats, bring up cartoons characters during serious arguments, I could go on and on.

That guy you ran into is a LOT worse than that first impression you likely experienced. If this comes off as suspicious, I apologize, but I think you should know this. Apologies if this comes off as "yappy" too.

The discord incident

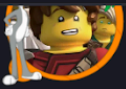

So back in 26 Mars 2026, Taultvault (AKA Klondike) was in Mackenzie's old discord server before it got deleted. I notice that he was acting strange around me as he would always act scared of me and would even try convincing Mackenzie to not trust me.

I remembered suggesting some rules which got added to his server which Klondike wasn't happy with since the rules came from me

TBDLs Rule 2 would be no discrimination (racism, ...

he already made the rules 😭

@klondike 😭

Pebrio eevee 🐾 16:41
Why sad

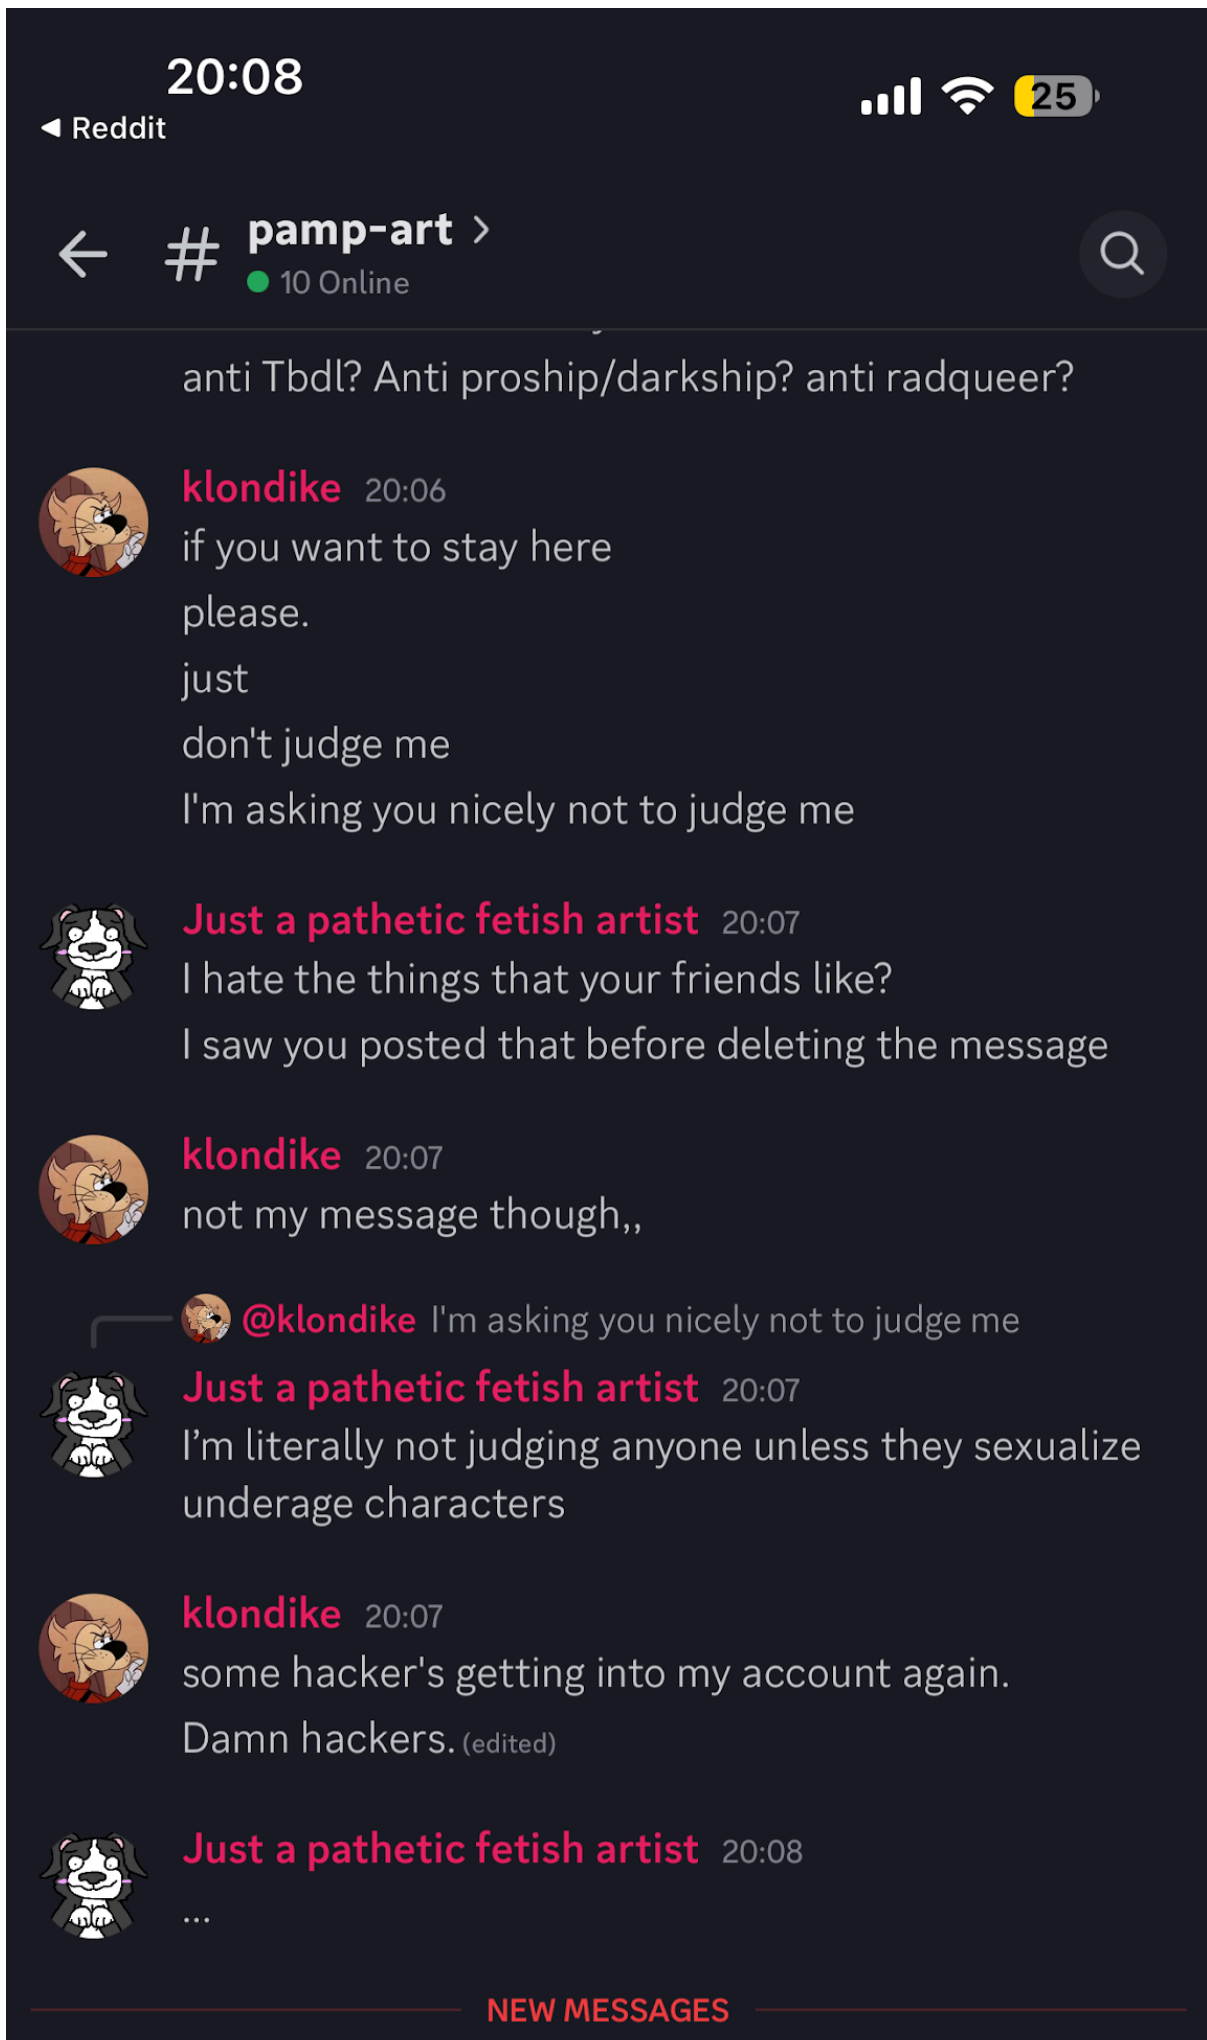

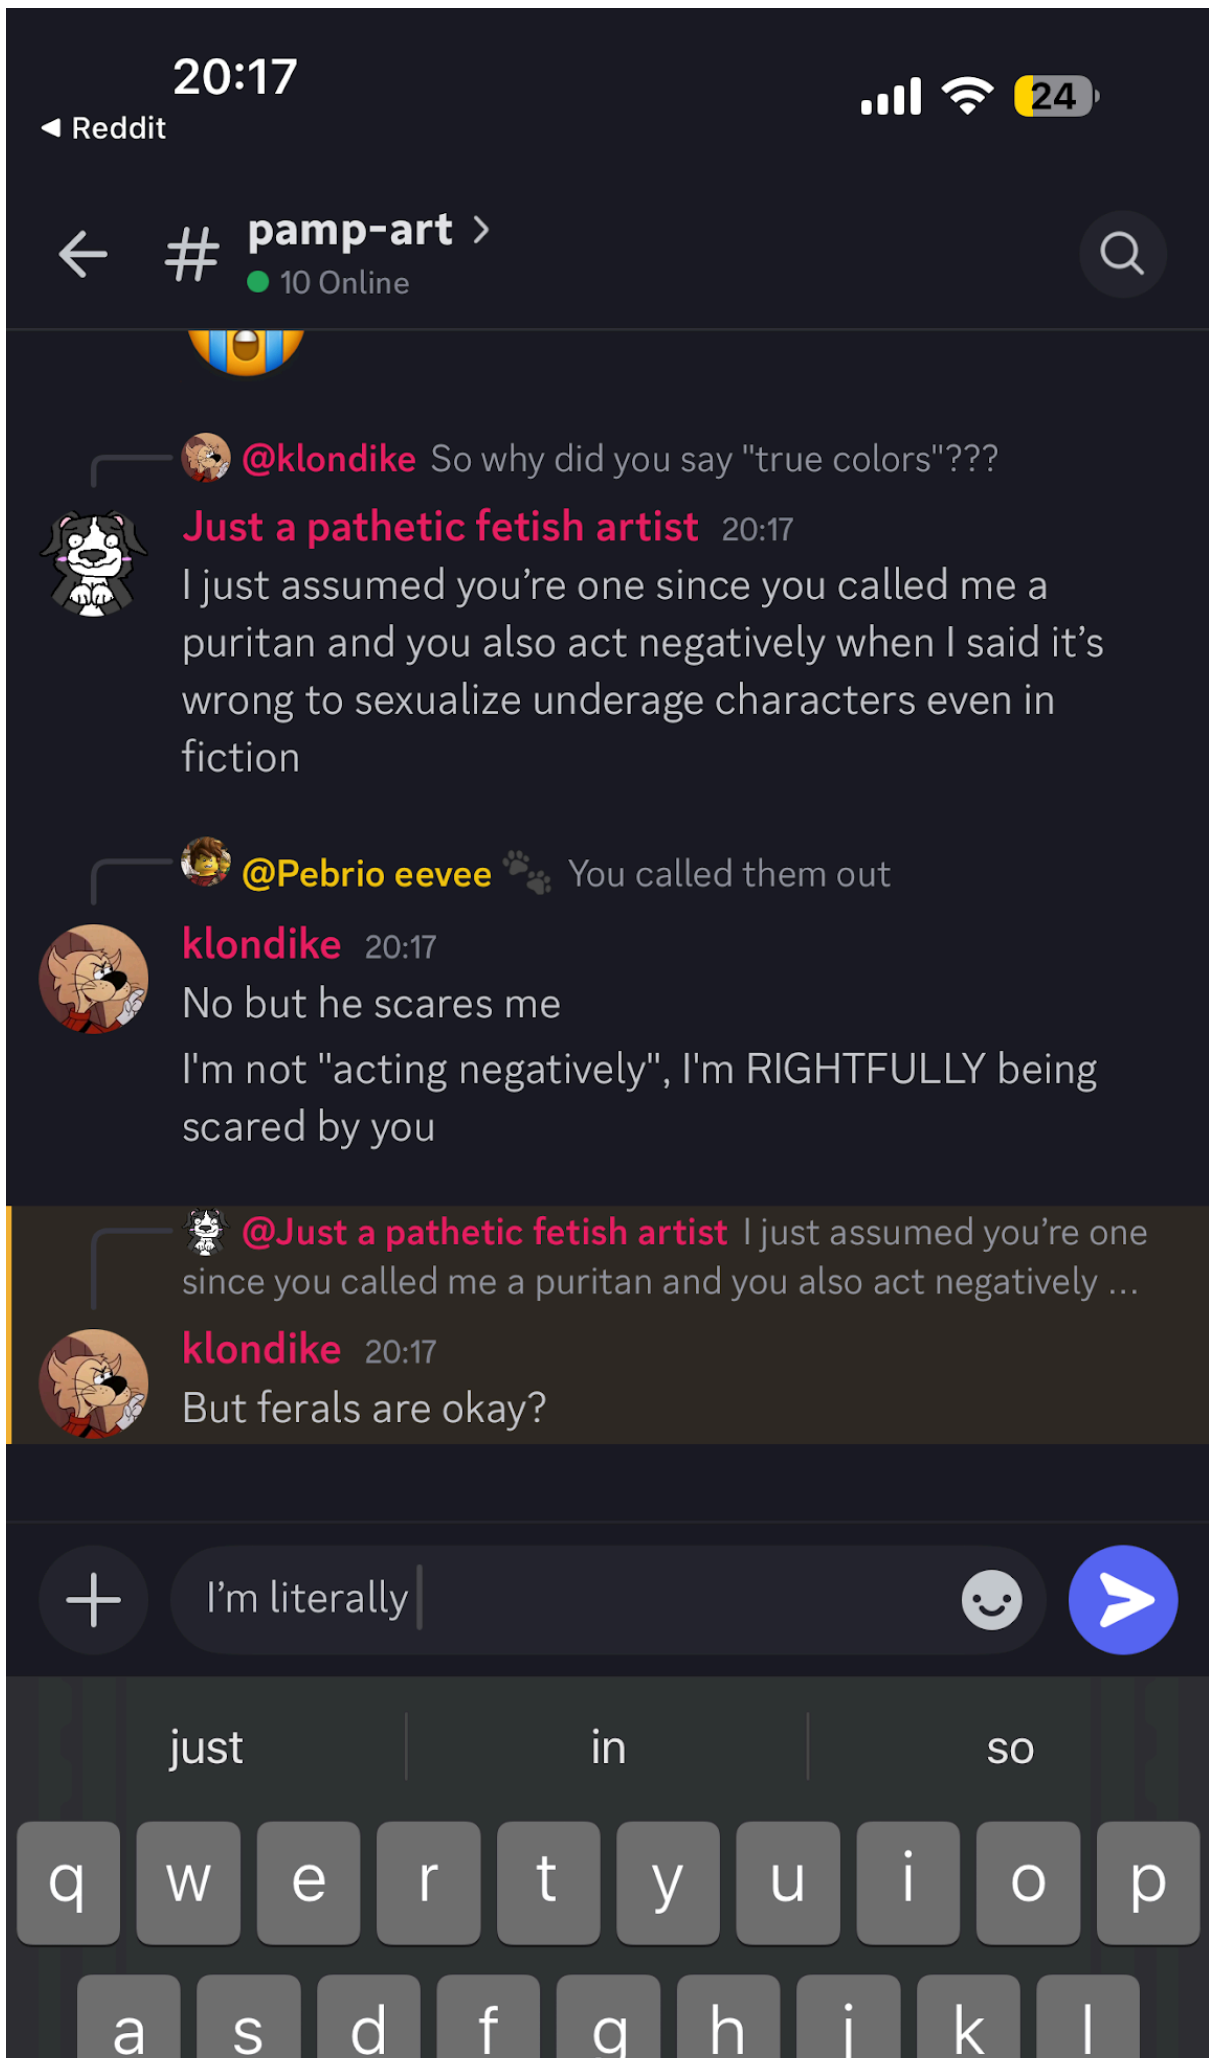

klondike 16:41
I can't psot now
Cuz of him

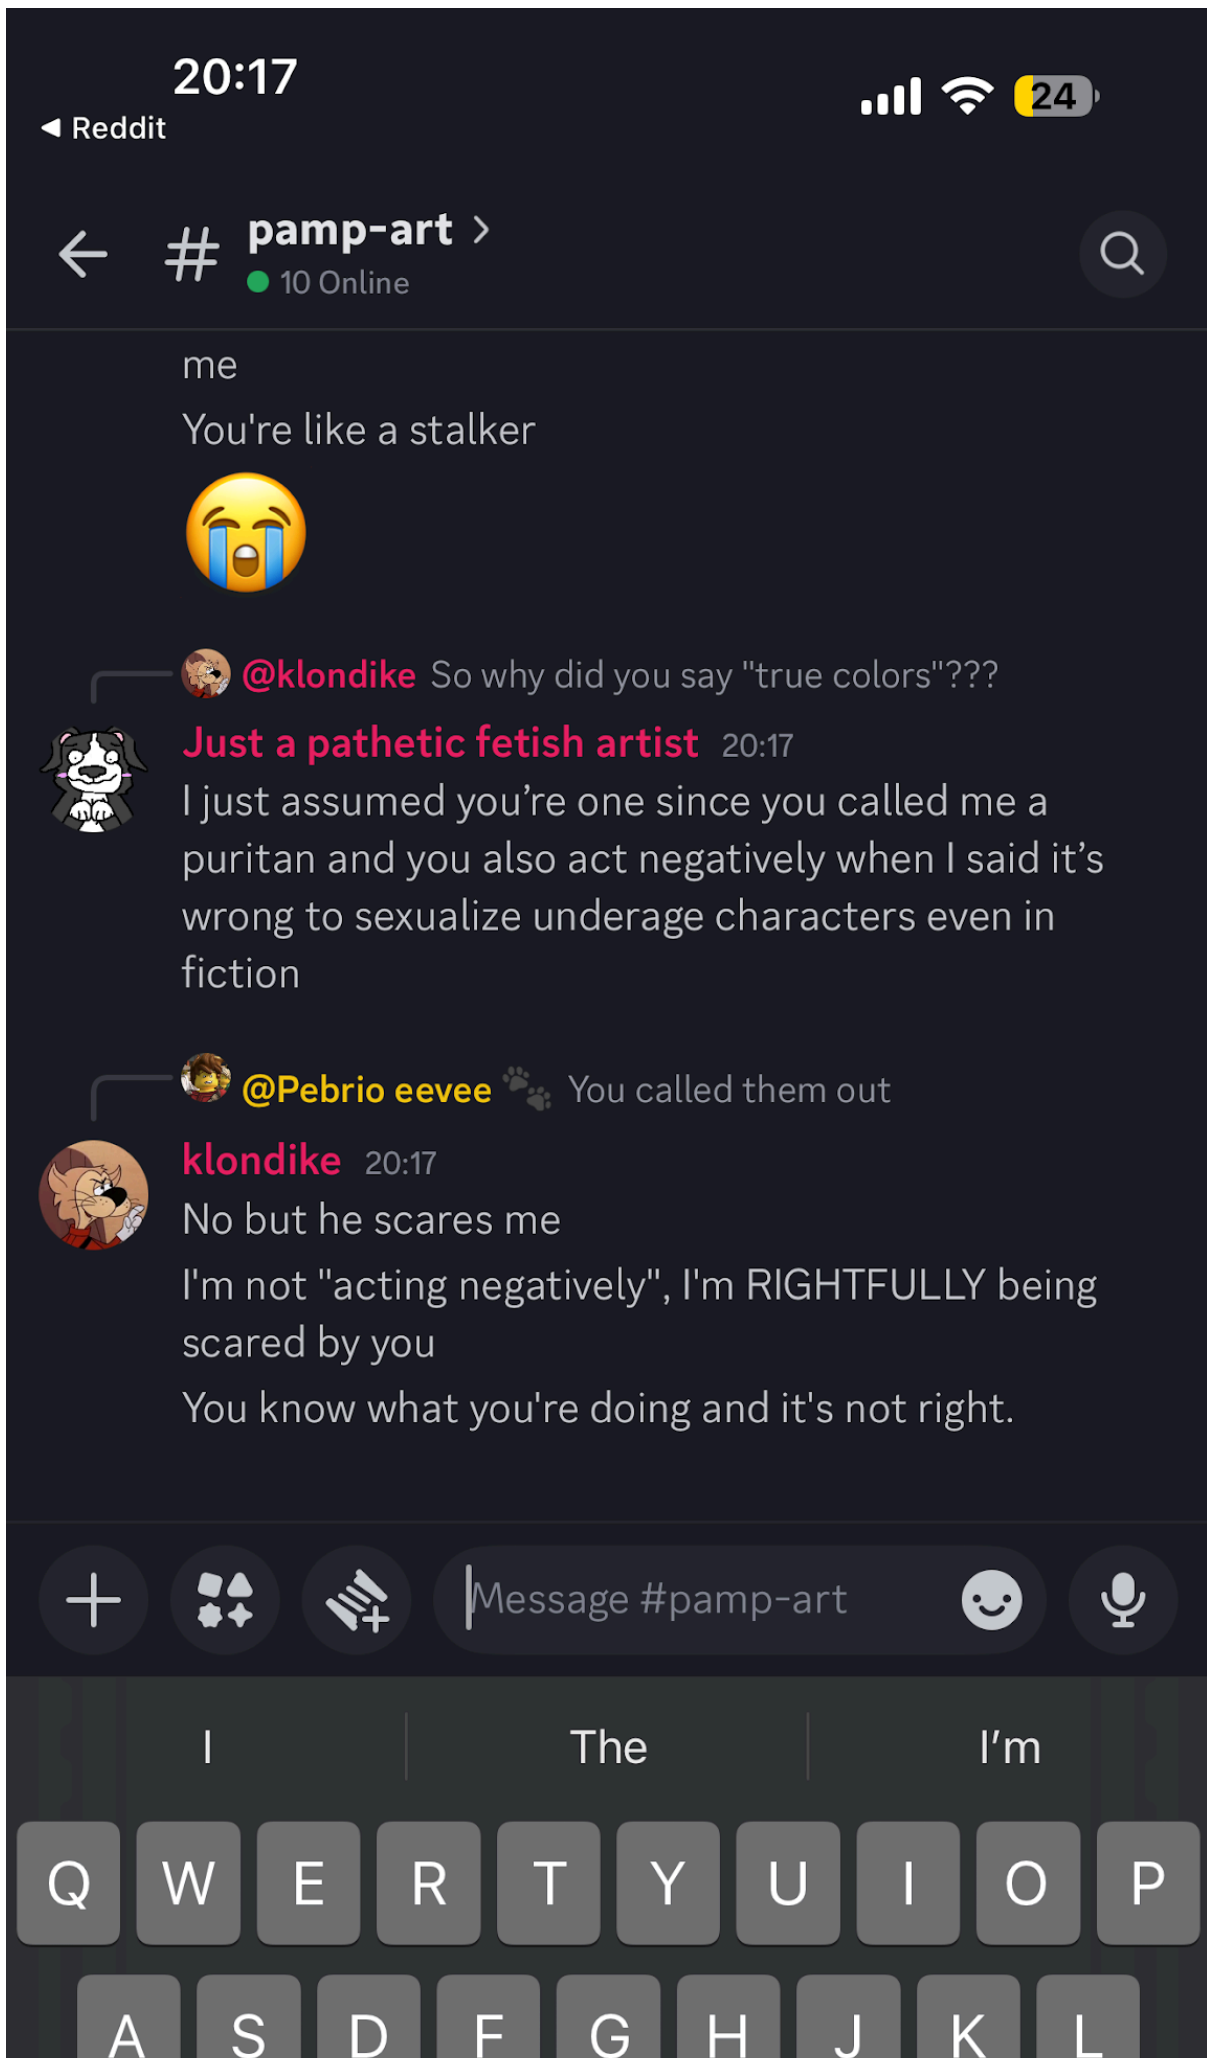

And then it began, now at first I was confused as why he was treating me like I'm a monster until he started blurting out stuff like how I'm an "anti" and how he doesn't want to be with a "puritan", these words made me suspicious of him since cub/lolisho, proshippers/darkshippers, etc etc use these same exact buzzwords against people who are against depicting underage characters in sexual situations.

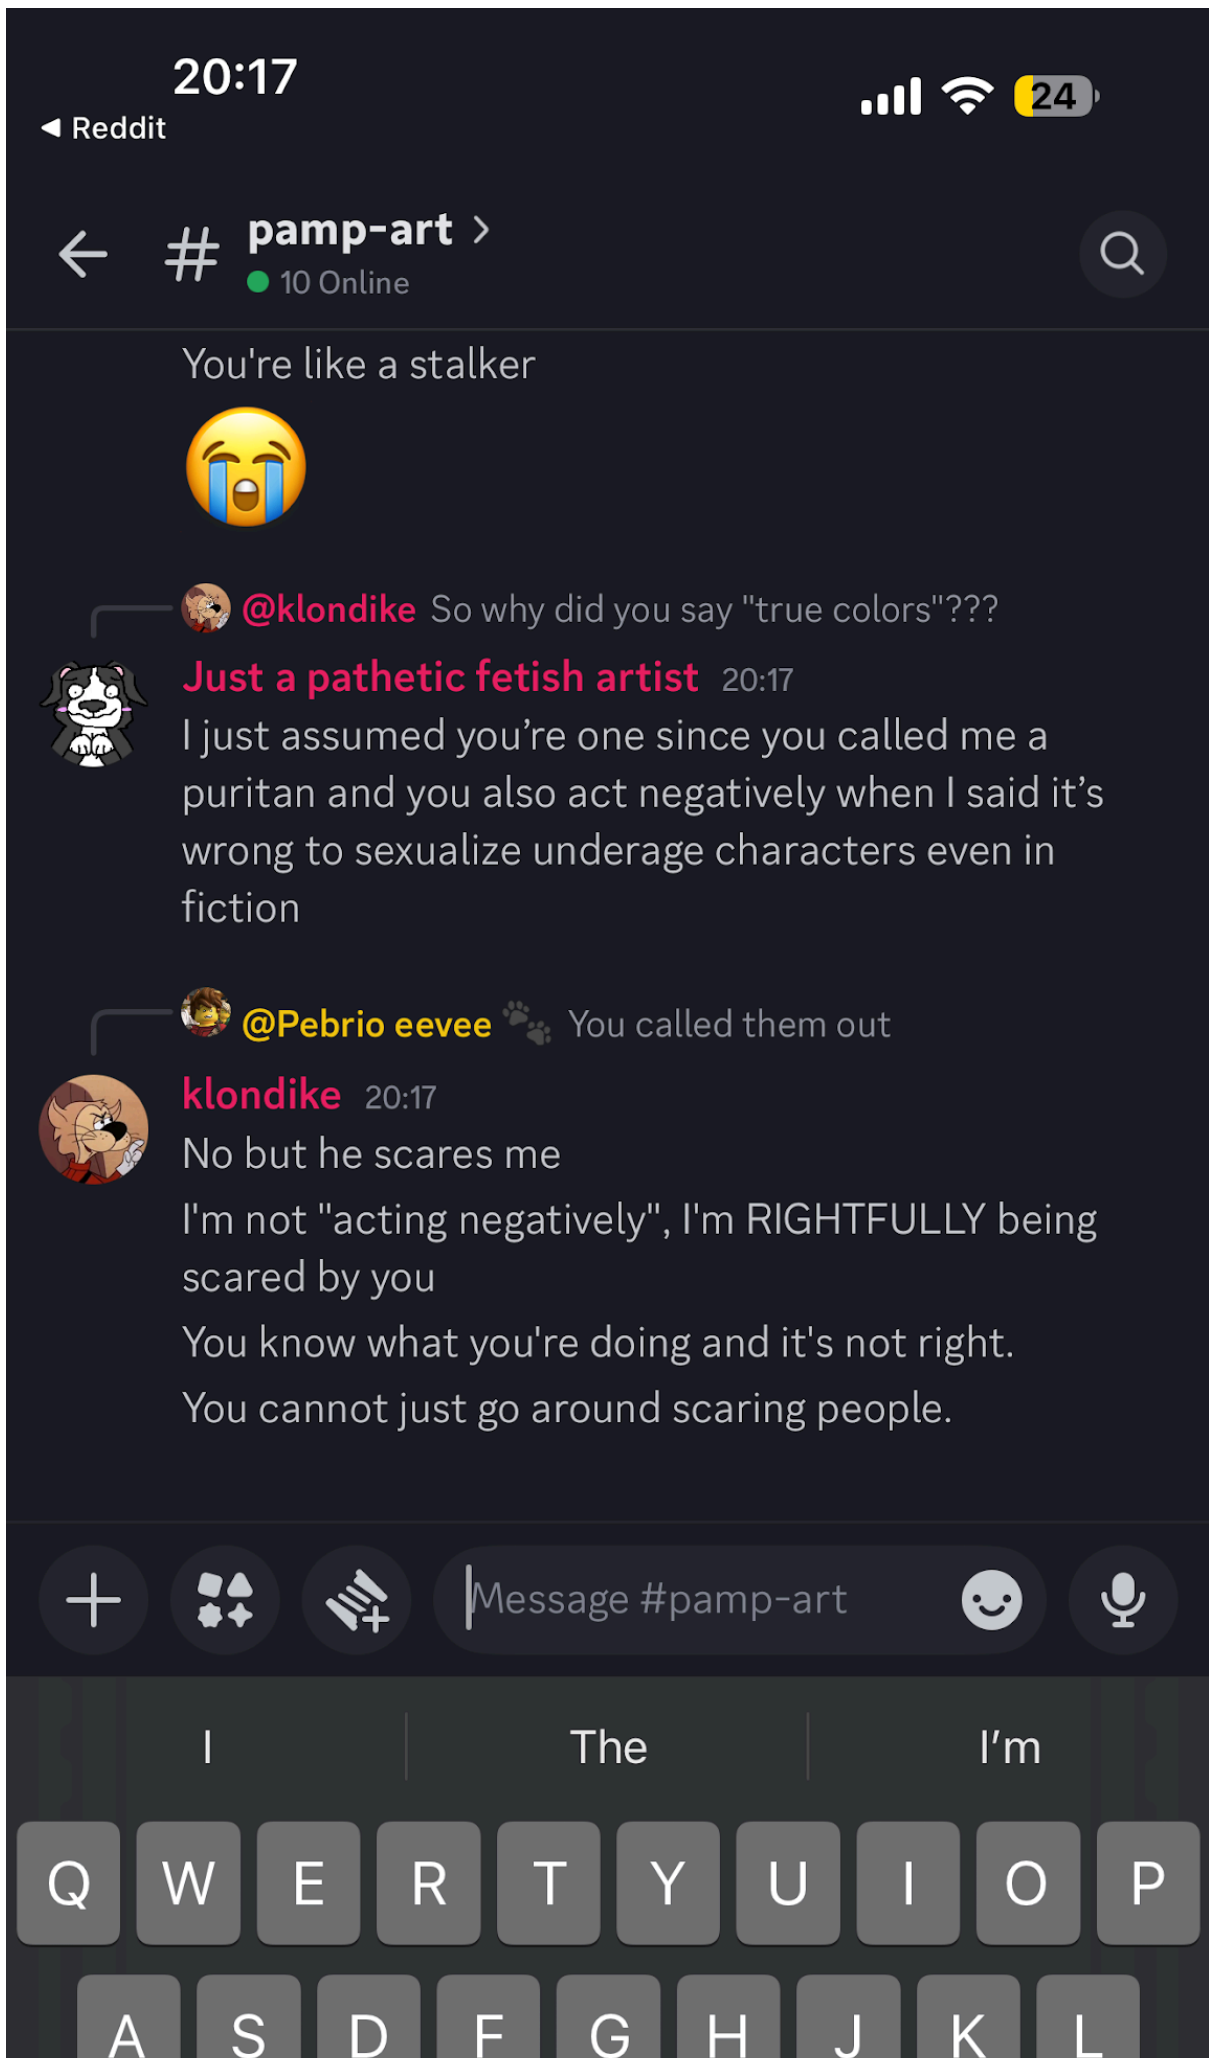

I did remember showing proof that he was constantly posting and deleting his messages just so that he could make it look like I was the one who lying about his actions towards me. I had uploaded the recorded proof which I will link down below.

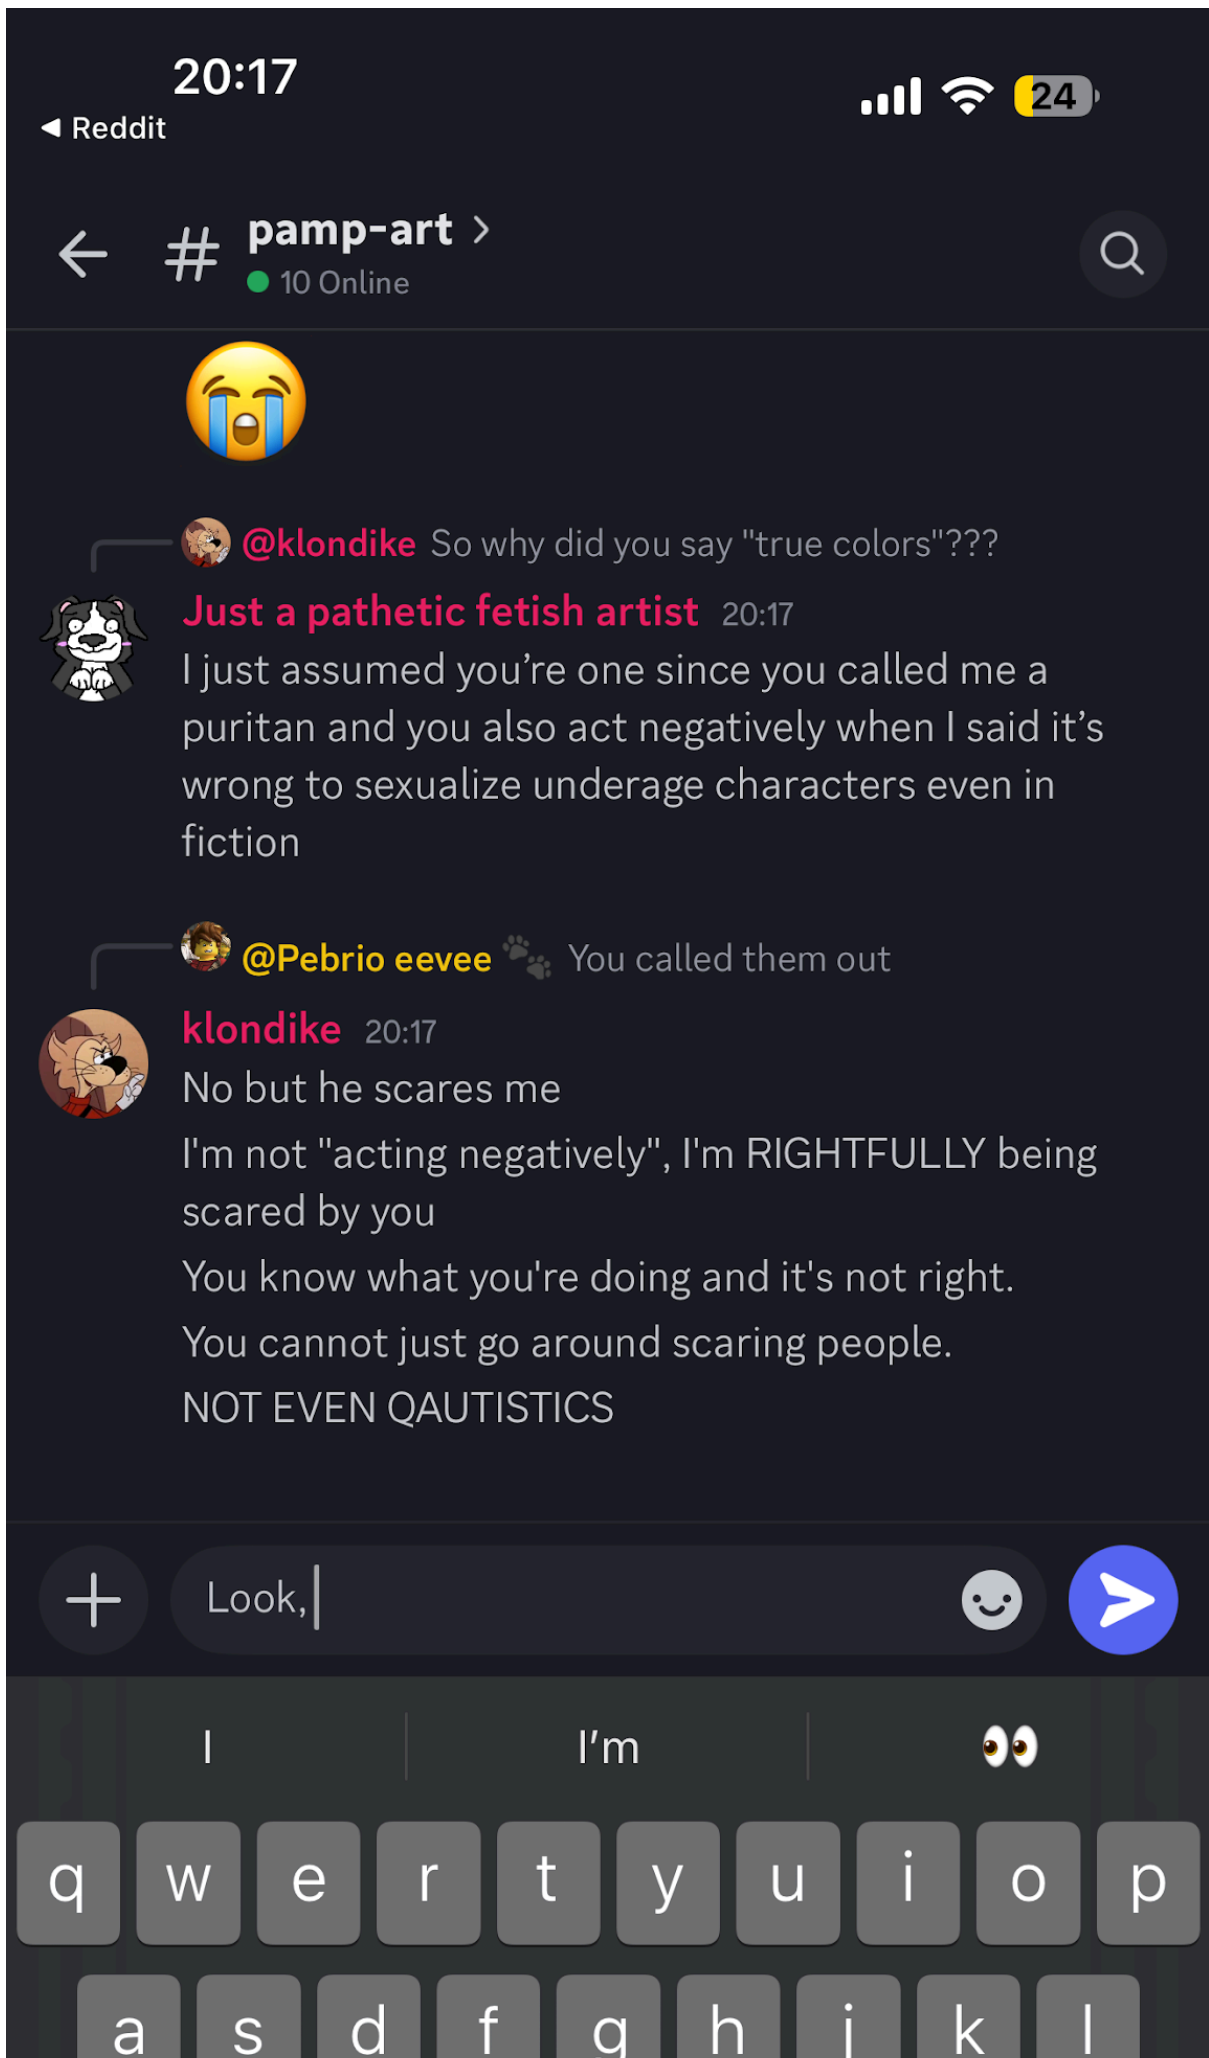

For now I'll just show you some screenshots of how it went, now obviously I'm not going to be showing ALL of the screenshots since it's a lot so I'll just show you the most important screenshots that I have.

Do you now know why I said I couldn't upload everything? This is why. There is more, but for now just focus on the important details.

Not only was he calling me a retard but he was also ableist towards me as he called me "non-autistic pal" despite the fact that I'm autistic myself.

And also my suspicion got confirmed when he showed me a screenshot of my own discord bio marking my DNI list in red below it while also writing "you hate me" with a sad face beside it.

He also threatened me to ask someone to draw gore art of me.

To summarize this entire discord thing, it started with him acting scared around me before basically admitting that he supports proship/cub and then he started insulting me, threatening me, and also being ableist towards me.

Anyways here's two recorded proof that he posted and deleted his messages
